Product Description

Metal Wide Belt Sander

General Description

This is a metalworking wide belt sander for deburring, sanding, polishing, finishing, slag removal and texturing. With 2 powerful sanding drums and vacuum sucking work-table, the metal wide belt sander can process wide metal sheets, plates, middle and small size metal work-piece in an effective way for deburring, grinding and finishing. With a quick change of the abrasive belt, this metal wide belt sander can do slag removal and oxide removal of the metal parts done by plasma cut or flame cut.

The metal wide belt sander is designed for one wide part or multi smaller parts processed in a production line or in an independent way. Vacuum sucking work-table can fix minimum 100mm smaller parts on the conveyor belt to insure a good deburring or finishing. Either high productivity in a flow line or reliable effects for smaller parts, this metal wide belt sander will not let you down, but saving labor and time.
