

## 13 Inch-43 Inch Wide Belt Grinder With Top / Bottom Configurations

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: SKD
- Model Number: 1000-series
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

#### Product Specification

- Name: Wide Belt Grinder
- Belt Width: 13 Inch To 43 Inch
- Motor Size: 5 HP To 30 HP
- Types Of Heads: Drum, Scotch-Brite, Brush And Disc
- Feed Motor: 1 HP To 3 HP
- Orign: China
- Highlight: **43 Inch Wide Belt Grinder,  
Top Configurations Wide Belt Grinder,  
Bottom Configurations Wide Belt Grinder**

## Product Description

### Wide Belt Grinder

Certainly! Here's some additional information about the 1000-series machines:

**Heavy-duty Construction:** The 1000-series machines are built with a strong and sturdy construction to handle demanding applications. They are designed to withstand heavy workloads and provide long-lasting performance.

**Smaller Footprint:** Despite their robust nature, these machines have a compact footprint. This makes them suitable for job shops with limited space, allowing for efficient utilization of the available area.

**Versatile Applications:** The 1000-series machines are versatile and can be used for various applications. They excel in tasks such as deburring, dross removal, calibrating/dimensioning, edge radiusing, and finishing. This versatility enables them to meet the diverse needs of different industries and projects.

**Top and Bottom Configurations:** These machines are available in both top and bottom configurations. The top configuration provides easy access for loading and unloading, while the bottom configuration offers enhanced stability and support. You can choose the configuration that best suits your workflow and operational requirements.

**Durability and Reliability:** The 1000-series machines are engineered with precision and attention to detail. They are built to deliver consistent and high-quality results throughout their lifespan. You can rely on these machines to handle challenging tasks with efficiency and reliability.

Overall, the 1000-series machines combine heavy-duty construction, compact design, versatility, and reliable performance. They are an excellent choice for job shops looking for a robust solution to handle various applications while optimizing space utilization.

### MACHINE FEATURES

1. Machines built in widths from 13" to 43" and multiple head frames
2. Dual infeed and outfeed pinch rolls to ensure parts feed through machine properly
3. One- to three-head configurations with drum, brush, disc or combination drum/brush/disc heads
4. Machines built in both top and bottom configurations
5. Individual cam adjustment down to .001" per head for accurate finishing
6. Air-loaded cylinder for automated belt tensioning
7. Automatic abrasive belt tracking to ensure proper belt alignment during operation
