

Versatile Wide Belt Sanding Machine For Edge Breaking / Edge Radiusing

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: Wide Belt Sanding Machine
- Brush Head Diameter: 8"
- Small Footprint: Yes
- Surface Finishing: Deburring, Edge Breaking, Edge Radiusing
- Contact Drums: 6-10"
- Feed Speed: 15-45 Rpm
- Highlight: **Versatile Wide Belt Sanding Machine,
Edge Radiusing Wide Belt Sanding Machine,
Edge Breaking Wide Belt Sanding Machine**

Product Description

Wide Belt Sanding Machine

General

This model can be configured for metal finishing or deburring. This versatile group of machines is available in 2 widths with configurations of 1-3 heads. By combining an abrasive belt and a nonwoven roll brush, products can be deburred and rounded in one pass. The machine is produced for deburring laser cut metal and edge rounding of sides, with low user costs.

Technical Data

Number of heads 1-3
Available in multiple configurations depending on customer application
Machine widths of 37", and 52"
Electronic photo-eye abrasive belt tracking
Dust extraction available
Minikol Go-To bed position device
15-45 fpm feed speed
Up to 40 HP main motors
0-6" machine opening
8" minimum part length
6-10" contact drums
8" brush head diameter
Oscillating brush heads
High production capacity with increased ROI and reduced operating costs
Increased throughput with the ability to run up to 2 shifts
Deburring, edge breaking, edge radiussing, and surface finishing in one pass using multiple heads
Electronic photo tracking eyes for accurate abrasive belt tracking
Ability to customize configurations based on customer applications
Removal of vertical burrs from stamped, punched, laser, plasma, and water-jet cut parts
Dry operation
Small footprint
