

## Customized Deburring Metal Machine , Small Footprint Wide Band Sander

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

### Product Specification

- Brand: SKD
- Name: Deburring Metal Machine
- Origin: China
- Finishing: Sheet Metal , Stainless Steel, Aluminum, Copper, Brass, Etc
- Workpiece Thickness: 0.8-100 Mm
- Grinding Belt Drive Up: 11 KW
- Highlight: **Customized Deburring Metal Machine,  
Wideband Deburring Metal Machine,  
Small Footprint Wide Band Sander**

## Product Description

### Metal Finishing Machine

#### General

This type of equipment is called a wideband sander and is primarily used for wet or dry surface treatment of metal sheets. It can refine, improve or shape the surface of a substrate. Different from the common sanding method, it uses a grinding head or a grinding disc to achieve a smooth effect on the surface of the metal sheet. Surface finishing improves the aesthetics, durability and other desired properties of the finished part.

#### Technical Data

Working widths 1100 and 1350 mm	Grinding belt length 1900 mm
Working height 800-900 mm (variable)	Infinitely adjustable feed speed (1-10 m/min)
Version with 1 to 2 grinding stations	HMI-controller
Workpiece thickness 0.8-100 mm	Grinding belt drive up to 11 kW
