

Customized Wide Belt Polishing Machine Manufacturer For Construction Industries

Our Product Introduction

for more products please visit us on skdmachinery.com

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: Metal Finishing Machine
- Brand: SKD
- Finishing: Sheet Metal , Stainless Steel, Aluminum, Copper, Brass, Etc
- Working Height: 800-900 Mm (variable)
- Workpiece Thickness: 0.8-100 Mm
- Grinding Belt Drive Up: 11 KW
- Highlight: **Customized Wide Belt Polishing Machine,
Wide Belt Polishing Machine Manufacturer**

Product Description

Metal Finishing Machine

General

This machine is designed for wet or dry surface treatment of sheet metal, with the aim of refining, modifying or shaping the substrate. Sanding is a common treatment method used to smooth the surface of sheet metal through the use of abrasive heads or discs. The overall goal of finishing is to improve the aesthetics, durability, and other properties of the finished part. This machine is widely used in various industries including manufacturing, automotive industry, aerospace and construction industries. It provides key process support for the processing and application of metal products to meet the surface treatment needs of metal sheets in different industries.

Technical Data

Working widths 1100 and 1350 mm	Grinding belt length 1900 mm
Working height 800-900 mm (variable)	Infinitely adjustable feed speed (1-10 m/min)
Version with 1 to 2 grinding stations	HMI-controller
Workpiece thickness 0.8-100 mm	Grinding belt drive up to 11 kW
