

1 Head-3 Head Wide Belt Sander Manufacturer Small Footprint For Slag Removal

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Model Number: 1000-series
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: 3 Head Wide Belt Sander Small Footprint
- Belt Width: 13 Inch To 43 Inch
- Number Of Heads: 1 To 3
- Motor Size: 5 HP To 30 HP
- Types Of Heads: Drum, Scotch-Brite, Brush And Disc
- Orign: China
- Highlight: **3 Head Wide Belt Sander manufacturer,
Single head Wide Belt Sander Small Footprint,
Slag Removal Wide Belt Sander**

Product Description

Wide Belt Grinder

The machines in the 1000 series feature heavy-duty construction and a small footprint, making them suitable for a variety of applications such as deburring, slag removal, alignment/sizing, edge chamfering or surface treatment. This series of machines can build both top and bottom structures simultaneously

MACHINE FEATURES

The machine can be manufactured in widths from 13 inches to 43 inches as required and equipped with multiple head frames. Double infeed and outfeed nip rollers are used to ensure the normal feeding of parts in the machine.

Available with one to three heads including roller, brush, disc or combination roller/brush/disc head.

The machine builds both the top and bottom structures simultaneously.

Each head allows independent cam adjustment down to 0.001 inch for accurate finish.

A pneumatic cylinder is used to realize automated belt tensioning.

Automatic abrasive belt tracking ensures correct belt alignment during operation.
