

Durable Wide Belt Polishing Machine Customized Stainless Steel Deburring Machine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: Metal Finishing Machine
- Finishing: Sheet Metal , Stainless Steel, Aluminum, Copper, Brass, Etc
- Working Width: 1100 And 1350 Mm
- Grinding Belt Length: 1900 Mm
- Working Height: 800-900 Mm (variable)
- Control: HMI-controller
- Highlight: **Durable Wide Belt Polishing Machine,
Wide Belt Polishing Machine Customized,
Customized Stainless Steel Deburring Machine**

Product Description

Metal Finishing Machine

General

This machine is designed for surface finishing of sheet metal, offering the flexibility to work with both wet and dry processes. It is used to refine, modify, or shape a substrate, improving its overall quality and appearance. Sanding is a widely used technique in finishing, utilizing abrasive heads or disks to smooth the surface of the material. The primary objective of finishing is to enhance the aesthetic appeal, durability, and other desired characteristics of the final component. By employing this machine, manufacturers can achieve high-quality surface finishes that meet their specific requirements and create finished components that are visually pleasing, long-lasting, and possess the desired attributes.

Technical Data

Working widths 1100 and 1350 mm	Grinding belt length 1900 mm
Working height 800-900 mm (variable)	Infinitely adjustable feed speed (1–10 m/min)
Version with 1 to 2 grinding stations	HMI-controller
Workpiece thickness 0.8-100 mm	Grinding belt drive up to 11 kW
