

Sheet Metal / Stainless Steel Wide Band Sander Machine Manufacturer

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: Wide Band Sander
- Brand: SKD
- Finishing: Sheet Metal , Stainless Steel, Aluminum, Copper, Brass, Etc
- Workpiece Thickness: 0.8-100 Mm
- Grinding Belt Drive Up: 11 KW
- Origin: China
- Highlight: **Sheet Metal Wide Band Sander,
Stainless Steel Wide Band Sander**

Product Description

Metal Finishing Machine

General

The wideband sander is a specialized equipment designed for performing surface treatments on metal sheets, whether in wet or dry conditions. Its main function is to refine, enhance, or shape the surface of the substrate. Unlike traditional sanding methods, it utilizes grinding heads or discs to achieve a smooth surface effect on the metal sheets. The purpose of surface finishing is to enhance the visual appeal, durability, and other desired properties of the final product.

Technical Data

Working widths 1100 and 1350 mm	Grinding belt length 1900 mm
Working height 800-900 mm (variable)	Infinitely adjustable feed speed (1-10 m/min)
Version with 1 to 2 grinding stations	HMI-controller
Workpiece thickness 0.8-100 mm	Grinding belt drive up to 11 kW
