

Custom Wide Belt Polisher Machine For Surface Finishing Sheet Metal

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: Metal Finishing Machine
- Finishing: Sheet Metal , Stainless Steel, Aluminum, Copper, Brass, Etc
- Control: HMI-controller
- Workpiece Thickness: 0.8-100 Mm
- Grinding Belt Drive Up: 11 KW
- Working Width: 1100 And 1350 Mm
- Highlight: **Custom Wide Belt Polisher Machine,
Sheet Metal Wide Belt Polisher,
Surface Finishing Wide Belt Polisher**

Product Description

Metal Finishing Machine

General

This machine is specifically designed for surface finishing sheet metal, regardless of whether it is done in wet or dry conditions. Its purpose is to refine, modify, or shape the substrate. Sanding is a commonly employed technique for finishing various materials, utilizing abrasive heads or disks to achieve a smooth surface. The main goal of the surface finishing process is to enhance the visual attractiveness, durability, and other desirable qualities of the end product.

Technical Data

Working widths 1100 and 1350 mm	Grinding belt length 1900 mm
Working height 800-900 mm (variable)	Infinitely adjustable feed speed (1–10 m/min)
Version with 1 to 2 grinding stations	HMI-controller
Workpiece thickness 0.8-100 mm	Grinding belt drive up to 11 kW
