

Versatile 1 Head Wide Belt Sander For Metal Finishing / Straight Grain Finishing

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SKD
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: Wide Belt Sander For Metal Finishing
- Customized: YES
- Abrasive Belt Size: 37" X 60"
- Number Of Heads: 1
- Conveyor Drive Motor: 1 HP
- Feed Speed: 5-25 FPM
- Highlight: Versatile Wide Belt Sander For Metal Finishing,
1 Head Wide Belt Sander For Metal Finishing

Product Description

Wide Belt Deburring

1. Metal Wide belt Sander
2. Deburring, Grinding, Slag Removal, Straight Grain Finishing
3. Upgrade your deburring and finishing operations with the Metalworking Wide Belt Sander, providing a cost-effective solution that eliminates the need for labor-intensive hand grinding. With a simple belt change, this compact machine swiftly handles tasks such as slag removal, vertical burr grinding, and achieving straight grain finishes, including some mill scale removal.
4. The Sander is a versatile machine meticulously designed to cater to the requirements of both small metalworking shops and large-scale production facilities. Its compact size and portability allow it to seamlessly integrate into various shop sizes, enabling independent operation for small projects alongside the main production flow.

Despite its modest footprint, the Sander is equipped with an array of features that enhance its functionality and optimize production efficiency. Additionally, its robust construction ensures durability and reliability, capable of withstanding heavy-duty use while providing years of consistent and labor-saving performance.

In conclusion, the Sander distinguishes itself with its adaptability, portability, and feature-rich design, making it an exceptional choice for metalworking shops of all sizes.

SPECIFICATIONS

Abrasive Belt Size: 37 inches x 60 inches.
Motor Size: Available options of 10 HP or 15 HP.
Number of Heads: Equipped with a single head.
Conveyor Drive Motor: Features a 1 HP motor.
Feed Speed: Adjustable feed speed ranging from 5 to 25 FPM (Feet Per Minute).
Shipping Weight: The machine has a shipping weight of 2,150 pounds.

In summary, the machine specifications include a 37" x 60" abrasive belt size, options for a 10 HP or 15 HP motor, a single head configuration, a 1 HP conveyor drive motor, adjustable feed speed ranging from 5 to 25 FPM, and a shipping weight of 2,150 pounds.
