

Precise Finishing Metal Deburring Machine 3000 Series Wet Metal Machines

Our Product Introduction

Basic Information

- Place of Origin: China
- Model Number: 3000 Series Wet Metal Machines
- Minimum Order Quantity: 1 set
- Price: USD10000-350000
- Packaging Details: Shrink Wrapped or Woodcase
- Delivery Time: 20-60 days
- Payment Terms: TT
- Supply Ability: 70-100set per year

Product Specification

- Name: 3000 Series Wet Metal Machines
- Motor Size: 15 HP To 70 HP
- Drum Size: 125 Mm To 360 Mm
- Machine Configuration: Top-Only
- Number Of Heads: 1 To 4
- Belt Width: 25" To 64"
- Highlight: **Precise Finishing Metal Deburring Machine,
Metal Deburring Machine 3000 Series,
3000 Series Wet Metal Machines**

Product Description

3000 Series Wet Metal Machines

Built with the heaviest production requirements in mind to allow you to meet your large production needs whether it be deburring, slag grinding, edge radiusing, paint/surface preparation, finishing/polishing or a combination of these applications. These heavy duty machines are built for the multiple shift, seven-day-per-week operations. This series of machine can be built in both top and bottom configurations.

MACHINE FEATURES

- Heavy-duty construction allows for 24-hour per day operation
- Machines built in widths from 25" to 64" and multiple head frames
- Dual infeed and outfeed pinch rolls to ensure parts feed through machine properly
- One- to four-head configurations with drum, brush or combination drum/brush heads
- Spray headers on both sides of sanding area to keep parts cool and belts clean during operation
- Individual cam adjustment down to .001" per head for accurate finishing
- Paper media filtration system with automatic paper advance
- Air-loaded cylinder for automated belt tensioning
- Automatic abrasive belt tracking to ensure proper belt alignment during operation
